GREAT SUCCESS OF UPHAM'S

PILE LECTUARY

Portland, Me March 14 1847

Dr Upham—My dear Sir I cannot express my gratitude and heartfelt thanks for the wonderful cure I have experienced by the use of your valuable medicine. I have been a perfect martyr to the Piles for 10 years, and no words can tell the pain and suffering I have endured. Your medicine with a little perseverance has effected a complete and general disarrangement of health, and I am happy to say I feel as well as I ever did in my life. I shall not fail to give it my hearty recommendation to all who may be afflicted with the Piles. I shall be happy to answer any inquiries in Boston and the Eastern cities, as I have made a cure by your medicine. I had been troubled with the Piles for 10 years, and no words can tell the pain I have suffered. I tried every thing I could hear of without effect. I at last tried your medicine, and now I am well

John S. Harward.—Editor.

THURSDAY, NOVEMBER 18, 1847.

☞ At the meeting in Lexington on the 13th inst where Mr Clay offered resolutions and made an elaborate speech, the New York Herald had a Reporter Mr Clay however, for the purpose of avoiding all misunderstanding or misrepresentation, stated that he was opposed to being reported, and that he intended to have his remarks printed under his own supervision and would then supply copies The Herald Reporter strongly urged to be allowed to report but Mr Clay declined and said if the Reporter persisted in reporting him he would not speak

Mr Clay offered the following resolutions

1st Resolved, as the opinion of this meeting, That the primary cause of the present unhappy war existing between the United States of America and the United States of the Republic of Mexico, was the annexation of Texas to the former and the unmerited occasion of hostilities between the two republics, arose out of the order of the President of the United States for the removal of the army under the command of Gen Taylor from its position at Corpus Christi to a point opposite Matamoras on the east bank of the Rio Bravo, within the territory claimed by both republics, but then under the jurisdiction of Mexico, and inhabited by its citizens That the order of the President for the removal of the army to that point, was improvident and unconstitutional, it being without the concurrence of Congress, or even consultation with it although it was in session but that Congress having, by its subsequent acts, recognized the war thus brought into existence without its previous authority or consent, the prosecution of it became thereby rightful

2d Resolved, That in the absence of any formal and public declaration by Congress of the objects for which the war ought to be prosecuted, the President of the United States as chief ruling statesman, and as commander in chief of the military and navy of the United States, is left to the grounds of his own judgment to prosecute it for such purposes and with such means as he may deem the honor and interest of the nation to require

3d Resolved, That by the consent of the United States, Congress has been invested with power to declare war and grant letters of marque and reprisal to make rules concerning captures by land and water to raise and support armies to provide and maintain a navy, and to make rules for the government of the land and naval forces, has the fullest and most complete war making power of the people of the United States and so possessing it, has a right to determine upon the motives, causes and objects of wars when once commenced or at any time during the progress of their existence

4th Resolved as the farthest opinion of this meeting, that it is the duty of Congress to declare, by a more authentic act for what purpose and object the existing war ought to be further prosecuted that it is the duty of the President in his official capacity, to conform to such a declaration of Congress, and if, after such declaration, the President should decline or refuse to endeavor by all the means, civil, diplomatic and military, in his power to execute the announced will of Congress, and, in defiance of its authority, should continue and prosecute the war for purposes and objects other than those declared by that body it would become the right and duty of Congress to adopt the most efficacious measure to arrest the farther progress of the war taking care to make ample provisions for the honor, the safety and security of our armies in Mexico in every contingency, and if Mexico should decline or refuse to conclude a treaty with us, stipulating for the purposes and objects solicited by Congress, it would be the duty of the government to prosecute the war with the utmost vigilance until they were attained by a treaty of peace

5th, Resolved, That we view with serious alarm, and are utterly opposed to any project like the annexation of Mexico to the United States in any mode, and especially by conquest; that we believe the two nations could not be happily governed by one common authority, owing to their great difference of race, laws, language, and religion, and the vast extent of their respective territories, and the large amount of their respective populations that such a union, against the consent of the exasperated Mexican people, could only be effected and preserved by large standing armies and the constant application of military force, in other words, by despotism, exercised over the Mexican people, in the first instance, but which there would be just cause to apprehend might, in process of time, be extended over the people of the United States that we deprecate, therefore, such a union, as wholly incompatible with the genius of our government, and with the character of our free and liberal institutions and we sincerely hope that such union may be left in the undisturbed possession of its own laws, language, cherished religion and territory, to pursue its own happiness according to what it may deem best for itself

6th Resolved, That considering the series of splendid and brilliant victories achieved by our brave armies and their gallant commanders, during the war with Mexico, unattended by a single reverse, the United States, without any danger of their honor suffering the slightest tarnish, can practise the virtues of moderation and magnanimity towards their disconsolate foe, we have no desire for the dismemberment of the Republic of Mexico, but wish only a just and proper fixation of the limits of Texas

7th Resolved That we do positively and emphatically disclaim and disavow any wish or desire, on our part, to acquire any foreign territory whatever, for the purpose of propagating slavery, or of introducing slavery from the U S into any such foreign territory

8th Resolved That we invite our fellow citizens of the U States, who are anxious for the restoration of the blessings of peace, or at the distracting war shall continue to be prosecuted, or desirous that its purpose and object shall be defined and known, who are anxious to avert present and further perils and dangers with which it may be fraught, and who are also anxious to produce contentment and satisfaction at home, and to elevate the national character abroad, to assemble together in their respective communities and to express their views, feelings and opinions on the subject

The Harbinger

This paper, the organ of the American Union of Associationists has been removed from Brook Farm to New York, and is now published in that city, on a sheet of a larger size, and with an increased quantity of reading matter It is to be edited by Parke Godwin, aided by Messrs. Ripley, Dana, Dwight, Channing and other prominent men in the Association movement

We only occasionally get a reading of this paper, and that through the attentions of some friend. What we have seen of it leads us to suppose very fully with the following remarks upon it by the editor of the Lowell Courier:

"The Harbinger is the oldest exponent of the views of the friends of the movement in this country, and is besides, as a literary journal, we have one of the most attractive papers that we have any knowledge of. A weekly acquaintance with the Harbinger for two or three years past has given us a very high idea of the ability and sincerity of its contributors, while we have found in it nothing of all of the Quixotism which is said by some of our writers to be inseparable from the discipline of Association. Every writer engaged in it, we think we could have detected if it had been there The Harbinger is published at [illegible] Bruce Street New York, price $2 per [illegible]

Rumor From Mexico.

The New York Journal of Commerce publishes an extract of a letter from a very respectable house in the City of Mexico, dated Oct 29, which says —"Mr Trist has again invited our government to new conferences May God grant that the result of them may be peace, which we so much desire This may be, and we hope is, true, but is at variance with the repeated declarations of the Government organs at Washington, that there would be no further overtures of peace on our part

Sympathy with the Pope.

We observe by the New York papers, that a movement is to be made in that city, among citizens of various religious denominations, for the purpose of giving a public expression of opinion and sympathy with the efforts of Pope Pius IX and the Italian people in favour of rational liberty and national independence A similar movement has been made in New Orleans

Successful Money Digging

A Citizen having informed our efficient City Marshal that he had seen a person within a fortnight mysteriously at work digging in the Public Garden, Charles street, and that he had having reason to suppose that the money stolen from Messrs A News & Co Washington St was thus deposed of, proceeded on Saturday with a sufficient force to the spot indicated, and dug for several hours, but without success. The next morning the Marshal commenced digging again, and his perseverance was rewarded by finding a glass jar containing eight one hundred dollar bank notes, two fives, and small ones bills all amounting to $1100, the exact amount stolen from Messrs News & Co's store. The person who gave the information was passed the jail, and Herbert, the person charged with having stolen the money, shows it to him. PENOBSCOT COUNTY TEACHERS' INSTITUTE.

Tuesday, Nov. 16, 1847

SECOND DAY

AFTERNOON.

The Institute met at Market Hall and listened to a lecture on Physiology, by Dr Cutter

The Institute then separates, one division to Mr Wolson a school room, and the other to Mr Littlefield's school room

There has been some object in the minds of a few of the Institute against separating for the purpose of drill, in the school rooms — But the relief experienced in the change, by way of exercise, and the adjustment of apparatus in the school rooms for the subjects illustrated are found in practice, to be so advantageous that all now agree in the measure as altogether the best for the success of the objects of the Institute

The division at Mr. Little field a school room attended to a lecture and an illustration on his method of teaching Geography. It was a plain, practical exposition.

He then referred to an exercise in geography which he frequently introduced to his classes and gave examples through one of his classes who were in the room for the purpose. He named the islands, bays, capes, oceans, cities capitals, &c, &c, as suitable topics, and desired any one present to select a topic anywhere within the ordinary range of geography

Islands were named

This topic was then taken up by the class in his way The first in the class selected any island she chose, spelt it and stated where it was situated The next selected another and repeated it in the same way, and so on one after the other But as soon as one selected an island which had been previously named, she took her seat, and thus the task goes on until all are seated or the subject is exhausted This is a waking up process, and it certainly calls for great attention, and the exercise of memory

After this exercise the class entertained the division with a song

The next subject introduced was mental arithmetic, a matter which in our city schools, is pursued very close by, and every pupil is expected to be thoroughly drilled in it

The method of analyzing problems was clearly explained and illustrated by the class It was a very gratifying exhibition of the readiness of the pupils in disposing of arithmetical questions by mental processes.

The division at Mr Wolson a room, were thoroughly drilled by Mr E M Thurston, on the elementary sounds of the letters and the elocutionary sounds in the language

This is an important exercise and enables teachers to lay a sure foundation for good reading in their schools

In the evening the Institute met at the Hammond street vestry and listened to a lecture on Physiology, by Dr Cutter

THIRD DAY

Wednesday, Nov 17, 1847

The Institute met at Market Hall

Prayer by Rev Dr Pomroy Dr Pomroy continued his lecture on his visit to Vesuvius, &c, commenced by him yesterday morning

The Institute then separated, the division who yesterday were drilled by Mr Thurston met at Mr Worcester's room for a drill in arithmetic There was quite an interest excited in this lesson, and a useful discussion

The session closed by a short lecture on Astronomy

The other division were drilled by Mr Thurston, in Mr Woolson's room, as he had drilled the division yesterday afternoon

At the recess, there was singing, and Mr Woolson then drilled the division in reading

MR EDITOR

Amidst the improvements of the times, none is, perhaps, more prominent than the multiplicity of public lectures, and of course lecturers, and I suppose that it is a valuable mode of instruction A good lecturer thoroughly informed on the subject of which he treats, and having the necessary tact or skill in communicating, may very much facilitate the progress of such as are studying his subject, or may impart much useful and interesting information to such as have not opportunity for study I have not time, nor have you room for an extended preface, so I will only make one remark, in which you and your readers will unquestionably agree with me, and that is a *good lecture*, is a good thing, but a bad lecture is not a good thing

I have been led to these remarks from the impression made on my mind by having attended Dr Cutter's lecture on Physiology, before the Institute last evening, on which I propose to make a few remarks:

And in the first place, I would observe that the manikin—is a curious contrivance and the Doctor seems to understand it like a book

In the second place I would premise that I am not so ignorant as not to know that science deals in the naked truth, and must necessarily do so, but still I am very decidedly of opinion that an anatomical lecture before a promiscuous assemblage, should be somewhat different from a lecture which might without impropriety be delivered before a class of medical students Now at the hazard of being thought rather squeamish, I would say to the Doctor, that while lecturing on the contents of the chest, I think it would be well, that all lower region, the abdomen, should be covered, I think that the continued exposure of poor humanity must be felt by every auditor as at least indelicacy, and possibly might do more moral injury, than will counterbalance the imparting of information to be got from the lecture.

And secondly, I would observe that I thought the Doctor a witticism and not and greatly to the value of the lecture, or that his practical observations were of any great utility, or the century very appropriate or impressive.

I will not comment any more but give you a short account of the lecture, so far as I heard it.

In the first place, the Doctor pointed out the lungs, the heart, and the liver, he threw down a long discourse on the propriety of calling things by their right names, we must not call the liver, the liver, just as they happened to be, but we must call it the liver, the liver, the liver, and so on, with its contingents, observed that there might be a Medical and enlightened school by the Teacher presenting himself with a class of tripe, and the liver, and the pancreas, might be represented by a sheep's liver, which the teacher might provide, and which the scholars might both see and feel of—and in this way he said a pretty good apparatus might be got up for the school and he thought every school should be so furnished.

He to do so, that our eating should be regulated by the state of our health, and our observation of the action of our digestive powers—this, he said, should be proclaimed on the hundred hills of Maine, and the thousand hills of our Country He gave us here a fine touch of the sublime

But I must break off, and as I do not wish to do the Doctor injustice I will admit that he explained in some measure, many of the functions of various parts of the human system, but his general manner of remark and illustration was I thought better fitted for Chester, N H, where they call liver pluck, than for the first season of the Penobscot Institute, or for the meridian of JASON

Party Influence.

We are sometimes lost in amazement says one of our contemporaries when we contemplate the wide-extending influence of party domination It seems to blunt men's perceptions, so that they cannot distinguish between right and wrong It gangrenes the mental vision, causes people to see everything through colored glasses—It so distorts things, that men often fail to discern the difference between *party* and *country*; and blindly following the lead of one, they are so infatuated as to think they are serving the other More than this, it seems to render its votaries so intensely prejudiced, that whatever they have under From what we see and hear, they are forced to conclude that many of our citizens regard our President as the *government* and his *administration* as the country

A CARD.

On the eve of the 9th, the people of this place favored the subscribers with a visit of some four hours, which time was spent in conversation on various subjects, with singing, and other religious exercises As a token of their care for their Pastor, and willingness to support the Gospel, they left us the generous sum of fifty five dollars, $51 of which was cash In return they have our best wishes and sincere regard. Dr. Winter's Balsam of Wild Cherry.

This is a chemical extract of Wild Cherry & Tar Every body knows that Wild Cherry possesses important medicinal properties, and Tar which has always been admitted to be a Consumptive, and Lung affections generally, by the oldest and safest physicians Various remedies, it is true, have been offered and puffed into notice for the cure of diseases of the lungs, and some have been found no doubt very useful, but of all that have yet been discovered, it is admitted by physicians and all who have witnessed its effects, that none has proved so successful as this. For Asthma, Shortness of Breath, and similar affections, it may be pronounced a positive cure It has saved Asthmatic in many cases of ten and twenty years standing, after physicians had declared the case beyond the reach of medicine.

This Balsam is made from materials which Nature has placed in all northern latitudes as an antidote for diseases caused by cold climates

"Nature is but the name for an effect
Whose cause is God"

Let us not neglect her plainest dictates.

Mutual Benefit Life Insurance COMPANY.

OFFICE No. 3 GRANITE BLOCK—

EAST MARKET SQUARE - BANGOR.

THE affairs of this Company are in the hands of business men favorably known to the community who have permission to refer to the following gentlemen in Boston

Hon J Q Adams, Sam'l Appleton, Esq.,
Hon N Fairbanks, Hons. J R Trevett & Son,
Hon O Shaw, Esq, Johnson Smith & Co,
and to the following Gentlemen in Bangor:
Hon Edwards Kent, Charles Hayward,
Farrin Hones, Esq., Joseph Bryant,
James Cassey Geo R R Strickland

This Company offers the following advantages

1st When the premium is over fifty dollars annually, one-fourth may be paid in cash and three-fourths in a secured note, at twelve months, with six per cent interest, or it may be paid half yearly quarterly, or monthly

The Parties taking 5-8 policies, and paying 3-8 per cent of premium in cash, and those taking policies for sixteen or upward, and paying sixty per cent. in cash, (if over fifty dollars per annum) may give their individual notes for the balance, if satisfactory to the officers.

Whole number of policies issued in 24 months, to the 1st of May, 1847, 2[illegible]

Whole amount of premiums thereon $[illegible]

Dividend of profits, January 1847, 81 per cent.

This Company has now been two years in operation, and it has gratifying circumstances, that its progress has fully tested the principles adopted by its managers, and that the result has exceeded the most sanguine expectations of the founders.

The remarkably [illegible] advantages, which it without a parallel in the history of Life Insurance, shows it to be peculiarly adapted to the wants of the community, whenever they will find the important and best elements of

Patronage, Party ness, or [illegible] in the case of Life Insurance, Fire Insurance, Marine Insurance, &c.

Hon C. Magoun, Hon. J. Bryant, President
S R Mansfield, Esq. Medical Examiner

CONSUMPTION CURED!

TRIUMPHANT SUCCESS OF

Buchan's Hungarian Balsam of Life,

THE GREAT ENGLISH REMEDY FOR

COLDS COUGHS ASTHMA and CONSUMPTION!

The most celebrated and INESTIMABLE remedy for Cold Coughs Asthma or any form of PULMONARY CONSUMPTION, is the HUNGARIAN BALSAM of LIFE discovered by Dr Buchan England tested for upwards of seven years and introduced to the Public in Europe and subsequently introduced to the United States under the immediate superintendence of the inventor

The astonishing success of the Hungarian Balsam in the cure of every form of CONSUMPTION warrants the American Agent in soliciting for it not the WORST POSSIBLE ANSWER that can be found in the community — cases that seek relief even from any of the common remedies fail daily and have been given up by the most distinguished Physicians as incurable and INCURABLE. The Balsam in fact has cured and will cure the MOST DESPERATE of CASES It is no quack nostrum but a standard English Medicine known and established officially

TO THE CONSUMPTIVE

Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life not only to counteract the consumptive tendencies of the climate but to be used as a *preventative medicine* in all cases of colds, coughs spitting of blood pain in the side and chest, irritation and soreness of the lungs bronchitis difficulty of breathing hectic fever night sweats emaciation and general debility, asthma influenza whooping cough, and croup.

In case of actual disease of the lungs or seated Consumption, it is the ONLY SOURCE OF HOPE

UNIVERSAL HISTORY,

FROM THE

Creation of the World

TO THE

Beginning of the Eighteenth Century,

BY THE LATE

Hon. ALEX FRAZIER TYTLER,

LORD HOMEHOME

Senator of the College of Justice and Commissioner of the Jury in Scotland, and formerly Professor of Civil History and Greek and Roman Antiquities in the University of Edinburgh

THIS Work gives as the whole course of lectures on Universal History delivered by the Professor while engaged in the University of Edinburgh. Its preparation for the press was the first of his literary labors It has gone through a large number of editions in England and America The Work has been for many years and now is a text book in the first Universities of both countries, and in all probability will be handed down to the end of time for the strength bring of its style beauty of composition and faithful care of detail as the most interesting and useful work of Universal History for the time it embraces extant

The chief characteristic feature of the plan of the author is that he rejects the popular style of historians of arranging general history according to certain epochs or eras and proceeds to give the history of a nation or people through a long succession of years digressing only when the history of some other nation may be so interwoven with the one under consideration as to become inseparable In this way the author gives the history of the world from the creation to mankind from the best authority, with great simplicity and perspicuity,—and his work cannot fail to recommend itself to the professional man, the student and the general reader

The present edition is comprised in two handsomely printed octavo volumes of 1000 pages neatly bound and is offered at the low price of Three Dollars A liberal discount made to those buying to sell again or to teachers buying for their schools All orders by mail post paid promptly attended to

THE

GRAEFENBERG PILLS.

THERE are the most conclusive reasons why that class of Medicines denominated "PATENT," should be made the means of most valuable and enduring blessings to the human family Suppose, for example, it at a high order of talent, long and assiduous observation, and great medical learning and experience are brought to bear upon the invention and manufacture of a PILL. Why may not this long devotion to this division of medical science be crowned with the success that attends the exercise of similar talents and toil in other things? There is no reason, and it is but the simplest dictate of the simplest human sense to say that a Pill thus produced will be as perfect an article as can be made by man. *Twenty-five years devotion* to any one subject will give a man of ability the mastery over it This labor has been bestowed upon the

Graefenberg Vegetable Pills

and they are proscribed to the public with claims unparalleled in the whole history of medical science

It will be seen in tracing the history of all great inventions, that they were not made or discovered until the arrival of what may be termed THE FULNESS OF TIME. The mariner's compass, for instance, was not invented until in the "fullness of time" it was needed The *leadstone* always lay at man's feet, but he never knew what a wonderful and unerring guide was treasured in its silent bosom, until the Divinely appointed time drew near when distant continents and islands were to be revealed. It held it now transferred to the bilmacle of the adventurous sailor, enabling him to launch far away upon unknown Oceans, instead of timidly sailing within sight of familiar land marks!

So with the discovery of the New World, upon whose shores was to arise this Giant Nation to a power, a glory, a mission far beyond the conception of the wild enthusiasm The Old World had reached its highest destiny, the "fullness of time" drew near for the revelation of the New, and behold the immortal Columbus from the forecastle of his drenched and leaky vessel, found it! So with the invention of printing, of steam, of the magnetic telegraph Each of these had their own "fullness of time" marked, distinct and Providential.

☞ In MEDICAL SCIENCE THE SAME GREAT FIXED HISTORICAL PRINCIPLE is equally MARKED Most beautiful are all its illustrations and proofs of this which are to be found in the history of the world. We can trace them from the Mosaic dispensation down to the present hour all of them teaching us the lesson and giving us the hope that *something yet better* to heal human maladies is at hand

That this principle is as true of Medical as of Physical science is clearly shown in the

GRAEFENBERG GAZETTE,

which is furnished gratuitously to all who wish it,—The

Graefenberg Pills,

are proved by all who have to let them to be an in conceivable advance upon all other medical combinations and discoveries hitherto known, and they are announced as

THE GREAT REMEDIAL TRIUMPH

The inventor of these Pills rests his theory upon no school nor dogma of a dinary medical teachers Plant high itself upon the rock of

ALMIGHTY CREATOR,

THAT

"THE BLOOD IS THE LIFE,"

he requires that his disciples and his patients *make pure the life current* that leaps through their veins and arteries, before they can hope for a permanent cure Relief he can give them and so can others but the right and joyous health must come from a pure blood

But a most evil thought here comes in! So countless are the impositions which are practiced upon the public by pretenders and so numerous and boastful are the medicines advertised that the reader may be slow to believe in this Great Remedy A word, therefore, on this point

In the first place, READ THE GRAEFENBERG GAZETTE No matter how sceptical you may now be, that paper will convince you Thousands have been convinced in every State and Territory in the Union, and among them distinguished statesmen jurists clergymen, physicians, editors &c &c The labor of the enumeration would fill this page. Let the reader send to the most convenient agency for a copy of the Gazette, which can be had

GRATIS!!

In the second place, TRY THE PILLS It will cost but two cents trifle, and will introduce you to a medicine which you will decry blessing to the end of your days

Although all things press upon the minds of the advertiser which they would require to say to the reader, but the limits of this advertisement forbid But let any one afflicted with the following diseases make trial of the Graefenberg Pills and they will be PERMANENTLY CURED

Asthma,	*Flatulency*
Bilious Complaints,	*Fever Bilious, or Nervous,*
Boils	*Enteric Fever,*
Bowels deficient action in,	*Green Sickness,*
Breast Pang,	*Gripes*
Catarrh	*Heartburn,*

Epilepsy	*Nervous disorders,*
Fever—Low, Nervous Intermittent, Remittent,	*Neuralgia,*
Fever and Ague	*Rheumatism,*
	Stomach, various diseases,
	Worms

In all bilious or rhetmic diseases, these Pills achieve the most wonderful triumphs HERE THEY DEFY COMPETITION And as the susceptibility of the American constitution is to these diseases, they are aptly styled by some

The Pill of the New World

Their wonderful efficacy in these complaints arises from their power to OPEN THE PORES CLEANSE AND STRENGTHEN THE STOMACH AND BOWELS MAKE THE URINE FLOW HEALTHILY AND CLEAR, AND TO GIVE TONE AND STRENGTH TO THE SYSTEM

It is impossible within the limits of an ordinary advertisement, to give the reader the reasons for the most extraordinary success and spread of these Pills But REASONS DO EXIST which have abundantly satisfied the minds of thousands of this country and among them the accomplished Physicians, Jurists, Clergymen, and private citizens, male and female

☞ Numerous Certificates of the wonderful efficacy of these Pills might be presented, but a certificate with so days is scarcely worth the paper on which it is printed A few extracts from the correspondence of the Company, will, however, be given.

FROM INDIANA

"Your enterprise is the enterprise of the day Its magnitude will astonish its originators It is destined to effect a complete revolution in the medical world" FROM A JUSTICE OF THE PEACE IN WESTERN N YORK

I address you at the instance of a friend who is making a thorough trial of your remedies, and with complete success"

FROM A DISTINGUISHED GENTLEMAN OF BOSTON

Gentlemen

I cannot refrain from troubling you with a few lines to express my great pleasure in being able to say, that I have experienced the greatest relief from the effect of your Pills For many years I have suffered much from constipation which has disarranged my whole system, and I have not known a day's good health for many years past, and being no old man, I despaired of ever again enjoying life, but a friend recommended me to try your Pills which I did although without any confidence, the result, I am happy to inform you, has far exceeded my expectations, the cause of my suffering is nearly removed, and I feel my health and strength daily renewed, and I am satisfied that the merits of your Pills, when tested, must be acknowledged by the whole community, and will become the most popular medicine of the day"

FROM JUDGE ———, OF GEORGIA

Sir,

Since writing to you last upon the subject of my ill health I have been taking your medicine, and am pleased to say, that they have been of great service to me and if they continue to give me the relief I have already felt I shall consider the day you sent them I need not include again in the enormous bills I have before told you of, but intend to persevere, and hope to be able, the next time I write to give you the happy intelligence of a perfect cure I have heard of many instances in my neighborhood where they have performed some extraordinary cures"

FROM AN EPISCOPAL BISHOP.

Gentlemen—I consider it to be the duty of every Christian to make known to the world any advantages that they may have derived by accident or from any discovery of their own, and with this sentiment strongly impressed on my mind, feel great satisfaction in having it in my power to speak in the highest terms of the valuable discovery you have made in the production of your Pills I was induced to try them, from the philosophical manner in which you have reasoned on the subject and I meet the myself the pleasure, and you the justice to say, that I had no conception so speedily an effect could be arrived at My complaint has been that of the Liver, from which I despaired of getting better since taking your Pills, I find my spirits, health, spirits and appetite so much improved that I hope to find myself able to endure, without bodily suffering, the duties of an arduous Profession In future I will send to your agent for more Pills when needed With great consideration and gratitude, I am &c

Dr. Townsend's

SARSAPARILLA,

The Most Extraordinary Medicine in the World!

THIS extract is put up in quart bottles, it is six times cheaper, pleasanter, and warranted superior to any sold. It cures diseases without vomiting, purging, sickening or inhibiting the patient

The great beauty and superiority of this Sarsaparilla over all other medicines is, while it eradicates diseases it invigorates the body It is one of the very best Spring and Summer medicines ever known, it not only purifies the whole system and strengthens the persons, but it creates new, pure and rich blood, a power possessed by no other medicine And in this lies the grand secret of its wonderful success It has performed within the past two years, more than 35,000 cures of severe cases of disease, at least 8000 of these were considered incurable More than

3000 cases of Chronic Rheumatism,
2000 cases of Dyspepsia,
4000 cases of General Debility and Want of Energy
7000 cases of the different Female Complaints,
2000 cases of Scrofula,
1500 cases of the Liver Complaint,
2500 cases of Diseases of the Kidneys and Dropsy,
8000 cases of Consumption,

and hundreds of cases of diseases of the blood, viz — Ulcers, Erysipelas, salt rheum, pimples on the face, &c &c together with numerous cases of sick headache, pain in the side and chest, spinal affections, &c &c

This we are aware, must appear incredible, but we have letters from physicians and our agents from all parts of the United States, informing us of extraordinary cures R Van Buskirk Esq, one of the most respectable druggists in Newark, N J, informs me that he can refer to more than 150 cases in that place alone There are thousands of cases in the City of New York which we will refer to with pleasure, and to men of character It is the best medicine for the preventative of disease known It undoubtedly saved the lives of more than a

5,000 CHILDREN, THE PAST SEASON,

as it removed the cause of disease, and prepared them for the summer season

UNITED STATES OFFICER

Capt G W McLean, of the United States Navy, and member of the New Jersey Legislature, has kindly sent us the following certificate It tells its own story

RAHWAY, Jan 2, 1847

A year since I was taken with the influenza, and my whole system left in a debilitated state I was induced to try Dr Townsend's Sarsaparilla and after taking two or three bottles, I was very much relieved, and attribute it entirely to the said Sarsaparilla I have continued taking it, and find that I improve every day I believe that it saved my life, and would not be without it under any consideration G W McLEAN

SCROFULA CURED

This Certificate conclusively proves that this Sarsaparilla has perfect control of the most obstinate diseases of the blood Three persons cured in one house is unprecedented

THREE CHILDREN

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine — They were afflicted very severely with bad sores, have taken nine four bottles, it took them away, for which I feel myself under deep obligation Yours respectfully,

ISAAC W CRAIN, 106 Wooster st.

New York, March 1, 1842. Brooklyn, Jan 3, 1845.

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints No female who has reason to suppose she is approaching that critical period, "the turn of life," should neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life This period may be delayed for several years by using this medicine Nor is it less valuable to those who are approaching womanhood, as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all of the delicate diseases to which women are subject It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far stimulating the system, as to produce a subsequent relaxation—which is the case of most medicine taken for female weakness and disease

GREAT FEMALE MEDICINE

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for incipient Consumption, Barrenness, Leucorrhoea, or Whites, obstructed or difficult Menstruation, incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes produced by irregularity, illness or accident.

Nothing can be more surprising than its invigorating effects on the human frame Persons subject to weakness and lassitude, from taking it, at once become robust and full of energy under its influence It immediately counteracts the nervousness of the female frame, which is the great cause of barrenness

I will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but women assure the afflicted that hundreds of cases have been reported to us Several cases where families have been without children, after using a few bottles of this invaluable medicine have been blessed with a healthy offspring

Dr Townsend My wife being greatly distressed by weakness and general debility and suffering continually the pain and aberration of bearing down, falling of the womb, and with other difficulties and having known cases where your medicine has effected great cures and also hearing it recommended for such cases as I have described I obtained a bottle of your Extract of Sarsaparilla, and followed the directions you gave me. In a short period it removed her complaints and restored her to health Being grateful for the benefits she received, I take pleasure in thus acknowledging it and recommending it to the public M D MOORE

OPINIONS OF PHYSICIANS

Dr Townsend is almost daily receiving orders from physicians in different parts of the Union

This is to certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr Townsend's Sarsaparilla and believe it to be one of the most valuable preparations of the Sarsaparilla in the market H P PUTNEY, M D,

Albany, April 1 1845

The following is from one of the most respectable physicians on Long Island —

Greenport, July 10, 1845

Dr Townsend Dear Sir—It is with satisfaction that I say to you, that I have recently witnessed in several cases, the most beneficial results from the use of your Extract of Sarsaparilla Being engaged in the practice of medicine, I have prescribed it in several cases and never without benefit In the removal of diseases arising from a derange d state of the digestive organs, jaundice &c, it far excels any thing of the kind ever before offered to the public You will please send me two dozen, &c &c Respectfully yours,

S C FRESTON, M D

RHEUMATISM

This Sarsaparilla is used with the most perfect success in Rheumatic complaints, however severe or chronic The astonishing cures it has performed are indeed wonderful Other remedies sometimes give temporary relief, this entirely eradicates it from the system, even when the limbs and bones are dread ully swelled

☞ Hear Mr Seth Terry, one of the oldest and most respectable lawyers in Hartford, Conn The following is an extract of a letter received from him

Dr Townsend—I have used one bottle of your Sarsaparilla and I find it is excellent in its effects upon a chronic rheumatic pain to which I am subject, from an injury occasioned several years ago in a public stage. Please send me two bottles to the care of Dr Seymour. I have conversed with two of our principle physicians and recommended your Sarsaparilla SETH TERRY

PILES! PILES!! PILES!!!

Dr Townsend's Sarsaparilla is no less successful in curing the distressing complaint, than for diseases of the Blood, Dyspepsia, Rheumatism and Nervous Debility Read the following —

Dr Townsend Dear Sir—The effects of your Sarsaparilla are truly wonderful For the last six or eight years past I have been subject to severe attacks of the piles, during which I have suffered all the tortures of that complaint and have despaired of ever finding relief, except in death I have the pleasure to inform you there is yet a balm in Gilead! I have used two bottles of your Sarsaparilla, and feel no remains of my old complaint I send you this for publication, and any person you may refer to me, I would be happy to inform of the benefit I have received at your hands

Yours truly, JOHN HALL, 49 Fulton st

CAUTION!

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla a number of men who were formerly our agents, have recommenced making Sarsaparilla Extracts, Elixirs, Bitters, &c They generally put up in the same shaped bottles, and copy our certificates and advertisements, claiming that theirs is far superior and four times stronger than Dr Townsend's, &c, hoping thereby to deceive the public Some use fictitious names, others use their own, some of the unprincipled men publish counterfeit certificates, others have induced their brothers and other interested persons to allow the use of their names to which they put "Esquire," to give them importance. The public should beware their guard and look out for genuine. SUTTON'S PREPARATIONS!

TRY THEM, AND JUDGE FOR YOURSELF!

TO THE PUBLIC.

Wonderful! That's Right—A proper Principle adopted.

YOU cannot object to giving my articles a trial If they are not found to be as represented, return them and your money will be cheerfully refunded — Remember, there is no *quackery*,—no humbug,—here A trial will cost you nothing,—and if any one is humbugged, it will be myself With the utmost confidence I recommend to the particular attention of the public the following articles First—

MY EAU LUSTRAL HAIR RESTORATIVE.

This universally approved and admired article, free from ardent spirits, pungent essential oil, and other destructive materials, cleanses the hair expeditiously, renders it beautifully bright, and imparts to it the delicate fragrance of the flowers It excites the scalp to a new and vigorous action, cleanses it from *scurf* and *dandruff*, and its effect in the restoration and growth of the hair is unequalled by any other preparations of the kind Second—

MY EAU DIVINE DE VENUS AND NYMPH SOAP.

Composed of an Eastern Botanical Discovery of Surprising Efficacy, for rendering the SKIN SOFT AND FAIR, as well as imparting a Delicate Roseate Hue to the Complexion

No lady's toilet is complete without this article Its effect on the skin is strikingly beautiful It removes all harshness, clears the complexion, and leaves a delicate roseate hue that cannot be surpassed Third—

MY SHAVING CREAM.

"It is a luxury to shave with Jules Hauel's Premium Cream"

This Cream is acknowledged by all who have used it to be superior to any in use It produces a fine and rich lather It does not *smart* or *irritate* the skin, on the contrary, it is very soft and highly emollient No person will use any other, after once using this admired preparation Fourth—

MY DEPILATORY POWDER.

This Powder has never failed to produce the desired effect Its composition is infallible, and warranted to remove superfluous hair Many ladies have used it, who were afflicted with hair on the sides of the face arms, &c, giving a masculine turn to the features, and who testify to its happy effect Fifth—

MY CELEBRATED VEGETABLE LIQUID HAIR-DYE.

A Chemical Hair Dye, to enable persons to dye their hair instantaneously without the least inconvenience

"My white hair has been changed like magic by using one box only of Jules Hauel's celebrated "Vegetable Liquid Hair Dye"

Forechanging red or grey hair, whiskers, eye brows, &c, to a brown, black, or chestnut color The slight ess evil consequences need not be feared from its use—it always has harmless This composition is the only one sanctioned by the science of chemistry, to dye, in an indelible manner, the various gradations of colors, without danger or inconvenience and has justified the liberal patronage and unlimited confidence of the public

☞ *Beware of Counterfeits!* Ask for "Jules Hauel's Vegetable Liquid Hair-Dye," if you want the genuine article Sixth—

MY UNRIVALLED ROSE TOOTH PASTE,

is universally sought after, for the pearly whiteness it gives to the Teeth, without the slightest injury — Seventh—

MY CELEBRATED PERSIAN OR CHINESE POWDER.

Patronized by the Fashionable World of the United States and under the immediate patronage of the Ladies

This powder is unequalled for the nursery for resting, beautifying and preserving the complexion, rendering the skin delicately white smooth and soft, preventing cutaneous eruptions, chapping, and obviating too copious perspiration Travellers and residents in warm climates will highly appreciate this grateful appendage to the toilet

NINE HUNDRED DOLLARS REWARD

Will be paid to the person who will prove that Jules Hauel's *Vegetable Liquid Hair Dye* is not the best,—the very best yet known in this country or in Europe — This valuable discovery will enable a person to dye instantaneously the hair or whiskers, in a few minutes, without the least inconvenience This preparation is warranted not to wash out, nor to injure the health of the hair, and retains all its softness and brilliancy

From a celebrated Chemist of the City of Philadelphia

"DEAR SIR—It is with a high degree of pleasure that I furnish you with my testimony in favor of your *Eau Lustral Hair Restorative* I have been surprised by its wonderful and beneficial results, and have no hesitation in saying that I believe it to be the most valuable and extraordinary discovery ever known for restoring and reproducing a fine and luxuriant head of hair In regard to the *Nymph Soap, Hair-Dye, Rose Tooth Paste, Depilatory Powder*, and *Shaving Cream*, I must say that they are scientifically compounded and that it is a real luxury to use them Yours, &c

From CONSTANT GUILLOU, Esq, Attorney at Law, and Notary Public Philadelphia

"From personal acquaintance with Jules Hauel—so experienced and fashionable Perfumer and Chemist—I was prepared to appreciate the numerous testimonials in favor of his different fashionable preparations On trial of them in my own family, and some of them personally, I have more than realized these favorable anticipations,—they are, what they profess to be scientifically prepared and compounded I have at all times since my experience, been convinced of the great merit of the *Eau Lustral Hair-Restorative Shaving Cream, Nymph Soap* and, in fact, all the popular preparations of Mr Hauel.

It is with the greatest pleasure that I can recommend the above articles to all of my numerous friends, and the public They are, in their way invaluable

CONSTANT GUILLOU"

From DANIEL J. DRAMOND, Esq, Attorney at Law, Consul General of Portugal, United States, Vice Consul of Austria, Sardinia, Portugal and Tuscany

"To Mr JULES HAUEL

Sir—Though I have not the pleasure of a personal acquaintance with you, yet a sense of duty to yourself and the public generally, constrains me to bear my unsolicited testimony in favor of your different fashionable preparations On trial of them in my own family, and some of them personally I do positively declare that they are what they profess to be, skillfully prepared and compounded I am convinced of the great worth or merit of the Eau Lustral Hair Restorative, Shaving Cream Nymph Soap and Rose Tooth Paste — I am fully satisfied of their intrinsic worth and do heartily recommend them to all for the use and purposes they are intended Nothing can excel the beauty and lustre imparted to the hair by the use of the Eau Lustral Hair Restorative It invigorates the hair and promotes its growth The Shaving Cream is unsurpassed and decidedly excellent, being a fine and highly emollient composition—it does not smart or irritate the skin, while the Nymph Soap operates beautifully upon the pores of the skin, and cleanses it from all impurities The Rose Tooth Paste imparts to the teeth a pearly whiteness, and is well calculated to preserve the teeth and gums from decay They are in their way invaluable

"I have seen cases of my friends who have used your Vegetable Liquid Hair-Dye, its effect is really a wonder It dyes the hair in an indelible manner in a few minutes, and the color of the hair is really beautiful and none will detect the artificial colors, as it is in all natural Yours &c, DANIEL J DRAMOND.
